# FROM THE COMMITTEE CO-CHAIRS

Welcome Afterschool Community!

On behalf of the Missouri AfterSchool Network and MOSAC2 Planning Committee, we welcome you and are excited that you have joined us for the 2017 Professional Development Institute, “Beyond the Elements”! A huge thank you goes to our committee and the time and effort they have put in throughout this process! It’s been an amazing journey for us to bring you these three days of learning, networking and fun!

We hope you will enjoy new friendships and benefit from the wealth of knowledge, ideas, and motivation brought to you by the keynote speakers, presenters, and exhibitors who are here to share with you! The theme speaks to the importance of addressing all of the “elements” of afterschool. Please take time to view the “Periodic Table of Afterschool Elements” developed by one of our committee members and reflect on how these elements come together and present opportunities and challenges that you face daily, which can be a great conversation starter as your team reflects and makes plans during this time!

As with many other paths we take in life, the rewards of engaging in our field are a direct result of the amount of ourselves we give to it. Please take time to visit with one of the MASN Leadership Team members to find out how to get involved in the many ways the organization contributes to Afterschool in Missouri! For all of those involved, the experiences that we have shared are priceless!

Enjoy!
